Proven to teach drivers under 25 to make safe and legal driving decisions

Alive at 25[®] is a highly-interactive course that teaches drivers under 25 the attitudes of personal responsibility and respectful decision making to ensure they are capable of making safe and legal driving decisions. This **4 hour instructor-led classroom course** is designed and structured using a modular approach with four 60-minute sessions with five-minute breaks.

What participants will learn

Drivers between the ages of 15-24 are more likely than anyone else to be killed in a motor vehicle collision. Alive at 25 incorporates *Reality Therapy and Choice*[™] Theory techniques to help participants identify the five basic needs that drive human behavior. Alive at 25 focuses on behavior, judgment, decision making and consequences, and provides tools for making positive choices. This course is an excellent complement to standard driver education programs.

Course features

- Highly-interactive and engaging approach using a balanced level of information and learner-centered applications and activities
- A variety of teaching methods, facilitation techniques and multimedia presentation with videos that reflect the individual student's needs and unique learning styles and behaviors
- Emphasis on knowledge and skill transfer to the student experiences, including integrating suggestions for transferring new learning to real life, practical solutions
