

The No Need for Speed Bulletin Board Activity consists of:

- 18" x 24" Speeding Infographic
- Pieces to cut out and arrange on your bulletin board or wall; see the go-by below for an example of how to arrange the pieces.
- You will need to write out the text in black (stopping distance length and question at the top).
- Additional smaller items (buses and cars) can be downloaded from the activity page if you want to add additional rows displaying stopping distances for higher speeds. Use the stopping distance calculator at www.omnicalculators.com to generate these.
- **SAVE THESE ITEMS!** Bulletin board pieces will only be provided in your kit every 3 years, so make sure you save them for next year.

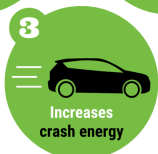

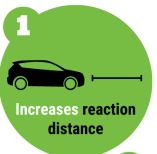

NO NEED FOR SPEED

SPEEDING

WHAT TO KNOW

3 Basic ways speed influences the risk of crashes:
Insurance Institute for Highway Safety

4 Things your vehicle stopping distance depends on:

- 1 Your perception of time
- 2 Your reaction time
- 3 Your vehicle reaction time
- 4 Vehicle braking capacity

SAFETY TIPS

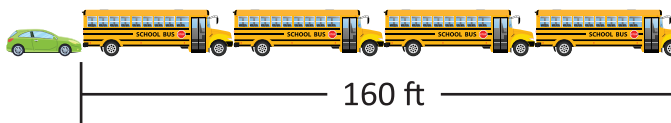

Car = 15ft
Stopping distance based on dry road conditions and 2 second reaction time.
