

Walk Signal

Walk Signal

Signal showing pedestrians they can safely cross the street.

Stop Signal

Stop Signal

Signal showing pedestrians
it's currently unsafe to
cross the street.

Pedestrians must yield to
cars and should NOT cross.

**Cyclist Left
Turn Signal**

Cyclist Left Turn Signal

Arm signal
bicyclists use to
signify they want
to turn left.

**Cyclist Right
Turn Signal**

Cyclist Right Turn Signal

Arm signal
bicyclists use to
signify they want
to turn right.

Marked Crosswalk

Marked Crosswalk

The safest place to cross the street. Legally, drivers must yield to you crossing if the WALK signal is activated or if you are already crossing the street when it turns red.

Sidewalk

Sidewalk

The safest place to
walk when available.

**School Ahead
Crossing Sign**

AD

School Ahead Crossing Sign

Sign alerting drivers that they are nearing a school and should slow down, watch for children, and be prepared to stop suddenly.

**Pedestrian
Crossing Sign**

Pedestrian Crossing Sign

Signal showing
pedestrians they
can safely cross
the street.

**Railroad Crossing
Ahead Sign**

Railroad Crossing Ahead Sign

Sign alerting drivers they are within a few hundred feet of a railroad crossing. If you see a train coming, STOP. Never try to outrun a train.

Stop Sign

Stop Sign

Big red sign all road users should know. Pedestrians must yield to vehicles at stop signs.

Bike Route Sign

Bike Route Sign

Routes designed exclusively for cyclists are marked by this sign.

**ROAD
WORK
AHEAD**

**Road Work
Ahead Sign**

Road Work Ahead Sign

This sign indicates to proceed with caution because the road is under construction. Be on the lookout for lane closures and road workers!

**SCHOOL
BUS STOP
AHEAD**

**School Bus Stop
Ahead Sign**

School Bus Stop Ahead Sign

This sign is to warn you that there is a school bus stop ahead.

Bicycle Helmet

Bicycle Helmet

You're at increased
risk of head injury
when riding a bicycle
if you don't wear this.

Right of Way

Right of Way

This refers to who can go first. Pedestrians have the right of way at intersections without traffic signs or when a walk signal is active. Vehicles have the right of way at stop signs or when the stop signal is active.

Unmarked Crosswalk

Unmarked Crosswalk

Any intersection without markings is one of these. Even when not marked, all intersections are crosswalks. Pedestrians have the right of way, so cars must yield to allow them to cross.

Red Pedestrian Hybrid Beacon

Red Pedestrian Hybrid Beacon

These lights mean vehicles must stop to allow pedestrians to cross and are relatively new.

Yellow Pedestrian Hybrid Beacon

Yellow Pedestrian Hybrid Beacon

These lights mean vehicles must be aware pedestrians are trying to cross and are relatively new.

Dark Pedestrian Hybrid Beacon

Dark Pedestrian Hybrid Beacon

These lights mean
pedestrians must stop to
and wait to cross and are
relatively new.

Dedicated Bike Lane

Dedicated Bike Lane

Areas that allow space for bicyclists to ride safely on the street separate from cars.

Backup Rearview Camera

TRACK ^

Backup Rearview Camera

This car safety feature allows the driver to see directly behind the vehicle, where pedestrians and bicyclists may be difficult to spot.

**Forward Collision
Warning**

Forward Collision Warning

This vehicle technology can help a driver detect when a pedestrian or bicyclist is in danger of a crash with a vehicle.

Visible Pedestrian

Visible Pedestrian

When you are out walking, especially in limited lighting, make sure drivers see you by establishing eye contact and wearing bright or reflective clothing.

Bike Rear Reflector

Bike Rear Reflector

Safety device usually attached behind and underneath a bike seat that helps make bicyclists more visible when hit with light.

CYCLISTS
MUST
DISMOUNT

Pedestrian Walkways

Pedestrian Walkways

Separate pathways or bridges that provide pedestrians with space to travel separate from roadway vehicles.
